POCA TELLO, ID 83205

Site: 001
POCA TELLO ZOO

Inspection
Type: ROUTINE INSPECTION
Date: AUG-30-2005

3.127 (c)

FACILITIES, OUTDOOR.

- A suitable method shall be provided to rapidly eliminate excess water. The method of drainage shall comply with applicable Federal, State, and local laws and regulations relating to pollution control or the protection of the environment.
- On the north side of the farm animal exhibit is an automatic water bowl. This bowl has malfunctioned and has allowed for water to continuously run out, causing water to stand in the pen.
- A regular program of routine maintenance must be implemented and when differences are noted, must be corrected. Standing water is a breeding ground for mico organism and disease-causing pathogens. Steps must be taken to insure this non compliant does not occur again through out the facility.
- To be corrected by: 9-9-05
